FURNISHINGS

CABINET MAKERS & FURNITURE DESIGNERS

TRADITIONAL, BESPOKE, CONTEMPORARY & MODERN

Handcraft Furnishings was founded by Peter Brennan and is based in his home town of Tubbercurry, County Sligo.

Handcraft's reputation is based on quality and attention to detail, pride in their work, and an ability to meet their clients needs within their budget.

Handcraft Furnishings are committed and dedicated to providing the best possible service and the highest quality Irish handmade bespoke furniture.

They design specifically for each customers requirements, offering unique and inventive design solutions to ensure your own style and ideas are not compromised.

Each bespoke kitchen they create is special, designed and built for an individual house and an individual customer.

For further details and images of Handcraft Furnishings kitchen and furniture designs, visit the website:- [www.HandcraftFurnishings.com](http://www.HandcraftFurnishings.com)

Striking examples of how to make the most of the height in an available space using floor to ceiling cabinets and furniture with a free standing feel.

The designs allow for the effective use of natural light to give the kitchens an open and airy atmosphere.

Kitchen islands can also be flexibly designed to include features like low level surfaces and built-in seating.

The traditionally beautiful feel of a solid wood kitchen can be made more individual with the careful selection of native hardwoods and natural finishes.

Each of our bespoke designs are unique, and we pride ourselves on a flexible and personal approach to meet each customers requirements.

Our free standing furniture demonstrates a high level of craftsmanship and careful attention to detail.

Our solid wood chairs and bespoke display cabinets can be designed to compliment any room style and decor.

We can add individual features such adjustable height tables, itemised drawers, wine racks and integrated lighting.

Handcraft Furnishings can design bespoke furniture for every room in your home, reproducing period or contemporary styles to suit any decor.

We can draw inspiration from existing furniture or features, match exotic woods and veneers, and source or commission antique handles and knobs.

Bespoke furniture can be crafted for everyday use or as a focal point, to add visual interest to an otherwise featureless space.
